Dear Parents and Carers,

I went to an interesting safeguarding session recently and thought you might find these useful reminders.

Kind regards  
Perina

## Internet Safety for Nursery Children

### Explore together

Talk to your child about what the internet is and explore it together so you can show them all the great fun and educational things they can do.

### Be involved

Only allow your young child to use devices with you. It is important that you keep an eye on how they're using the internet and also share in their enjoyment.

### Put yourself in control

Install parental controls on your home broadband. Most internet-enabled devices also allow you to set parental controls so you can manage what content your child can see and how they interact with others online.

### Use passwords

Keep your devices out of reach. Set passwords on all your internet-enabled devices and don't share them. Then you'll know when and where your child is accessing the internet.

### Set boundaries

It's never too early to start setting boundaries. Set some rules about how long your child can spend on.
