

We need your help!

In Kinder, we are always in need of donations for our 'junk modelling' area. We kindly ask you to bring in any recyclable materials, such as bottles, boxes and plastic containers (please remember to thoroughly clean out first). For health and safety reasons, we are unable to accept toilet roll tubes.

We are always restocking our wood work area and would love any donations of wood and material that you think might be useful to us (again, remember safety first).

Our mud kitchen is in need of a revamp so we can get cooking! If you have an old cutlery, metal spoons, metal whisks, spatulas, ladles, tongs and baking trays which you no longer need, we would be very grateful of donations.

Any questions, please see a member of the kinder team. Thank you 😊
